

## Earth: 2025

---

Write:

- 3 things that you didn't know
- 2 things that you did know
- 1 thing that surprised you

Questions:

1. What are the 2 major reasons for the projected population balancing?
2. If our population is projected to balance out around 11 billion what do we need to worry about?
  - List 5 challenges that we will face with an increased population?
  - What should we do to prepare for each these challenges?
