

### Endosymbiotic Theory

---

<https://www.youtube.com/watch?v=9i7kAt97XYU>

Why do we bother looking at K: Protista? How are we related to single-celled organisms, and what does it all mean?

1. What is the endosymbiosis theory (2:07)?
2. What three pieces of evidence support the endosymbiosis theory (3:00)?
3. What two present-day organelles are thought to have developed via endosymbiosis?
