

Kingdom Archaeobacteria Brochure

In groups of 3, create a brochure (fold paper into thirds) about the kingdom Archaeobacteria.

Your brochure will be organized as follows:

1. Making the Brochure- the brochure is made of one piece of paper. Fold the paper into thirds.
2. Cover- your cover should have a picture and an appropriate title. Your name should be written in the bottom right corner of the cover.
3. Inside the Brochure- Use the front and back of the paper. There will only be five open sections left in the brochure because of the cover. The brochure should entail the following information:
 - a. General information on Archaeobacteria such as:
 - i. Number of cells
 - ii. Type of cells
 - iii. Where are they found
 - iv. How do they reproduce
 - v. Mode of nutrition
 - vi. Why are they different from eubacteria
 - vii. Locomotion
 - viii. Shape(s)/ Size/ What they look like
 - b. How many phyla are in this particular kingdom? Explain each phylum using an example from each phylum.
 - c. Are there different types of Archaeobacteria? What are the types? Describe each type.
 - d. A picture or a diagram of sample organisms (one or a few)
 - e. 2 or more uses of the species in Kingdom Archaeobacteria in everyday life.
