

Routine Immunization Schedule

Let's keep Saskatchewan's population healthy, safe and protected.

These free vaccines are provided by Public Health and other selected healthcare providers. By getting immunized "on-time" and "on schedule", you and your children get the best protection against many serious and contagious preventable diseases.

Childhood Immunization Schedule	
Age/Grade	Vaccine Abbreviations and Complete Names
2 months	DTaP-IPV-Hib (Diphtheria, Tetanus, acellular Pertussis, inactivated Polio & <i>Haemophilus influenzae</i> type b) Pneu-C-13 (Pneumococcal conjugate 13) Rot-5 (Rotavirus)
4 months	DTaP-IPV-Hib (Diphtheria, Tetanus, acellular Pertussis, inactivated Polio & <i>Haemophilus influenzae</i> type b) Pneu-C-13 (Pneumococcal conjugate 13) Rot-5 (Rotavirus)
6 months	DTaP-IPV-Hib (Diphtheria, Tetanus, acellular Pertussis, inactivated Polio & <i>Haemophilus influenzae</i> type b) Rot-5 (Rotavirus)
12 months	MMRV (Measles, Mumps, Rubella, Varicella) Men-C-C (Meningococcal conjugate C) Pneu-C-13 (Pneumococcal conjugate 13) HA (Hepatitis A for children living on reserves and select Northern communities)
18 months	DTaP-IPV-Hib (Diphtheria, Tetanus, acellular Pertussis, inactivated Polio & <i>Haemophilus influenzae</i> type b) MMRV (Measles, Mumps, Rubella, Varicella) HA (Hepatitis A for children living on reserves and select Northern communities)
4-6 years	Tdap-IPV (Tetanus, Diphtheria, acellular Pertussis, inactivated Polio)
Grade 6	HB (Hepatitis B) Men-C-ACYW-135 (Meningococcal conjugate ACYW-135) HPV-9 (Human papillomavirus – 9 types) Varicella (Chickenpox)
Grade 8	Tdap (Tetanus, Diphtheria, acellular Pertussis)
6 months-17 years	Influenza (recommended every year)
Adult Immunization Schedule	
18 years & older	Influenza (every year) Td (Tetanus, Diphtheria) every 10 years. Tdap (Tetanus, Diphtheria, acellular Pertussis) should replace 1 of the Td doses. MMR (Measles, Mumps, Rubella for those born since January 1, 1970) IPV (inactivated Polio for eligible adults) Varicella – (chickenpox for eligible adults)
65 years & older	Pneu-P-23 (Pneumococcal polysaccharide 23 - one lifetime dose for most)
Individuals with Select Risk Factors	
Some people are eligible to receive these vaccines. Check with a Public Health Nurse	Hepatitis A Hepatitis B Meningococcal conjugate ACYW-135 Meningococcal B Pneumococcal conjugate 13 Pneumococcal polysaccharide 23 Tdap (Tetanus, Diphtheria, acellular Pertussis) in every pregnancy to protect the baby from whooping cough.
