Vestigial, Homologous and Analogous Structures

1.	Define the term <i>vestigial structure:</i>
2.	Please list the five vestigial structures listed in the video and the original function of each.
	a)
	b)
	c)
	d)
	e)
	**Research at least two more vestigial structures in humans:
	f)
	g)
3. Define the term <i>homologous structure</i> :	
4. What does the presence of homologous structures among different animals suggest?	
5. Define the term <i>analogous structure:</i>	
6 Have	are analogous structures related to convergent evalution?
6. How are analogous structures related to convergent evolution?
